Chiropractic Management
of the Pregnant Woman 2010

The Teaching Program

Kiro Kids three day seminar on management of the pregnant woman is an in-depth, innovative training program developed by the Kiro Kids pregnancy care special interest chiropractor Dr Kimberley Tuohey in consultation with Dr Neil J Davies and Ms Kyla Sheridan, a practicing Australian midwife with an interest in natural, minimal intervention childbirth and assisting second time mother's who had a first time Caesarean section to have a natural, vaginal birth.

The Seminar Presenter

Dr Davies is the author of the popular text Chiropractic Pediatrics A Clinical Handbook published by Churchill Livingstone which is now in its second edition.

Dr Davies is also the founder and developer of the NeuroImpulse Protocol technique used widely throughout the world as the leading neurologically based approach to chiropractic. Dr Davies is known all over the chiropractic world for his groundbreaking work in chiropractic paediatrics, making care of the pregnant woman the natural extension of his passion for clinical excellence.
